Last year’s Grace Hopper Celebration was like no other Celebration before. With grit, hope, and resilience - much like those who have charted the course through the many challenges we all face - we hosted our first-ever hybrid event, offering in-person and virtual participation. Gathering in person for the first time in three years was a much-needed opportunity, to be sure.

We at AnitaB.org, much like so many organizations and companies who participated, are still fueled by all we experienced last September. I continued to be personally encouraged to witness the power of coming back together and the momentum that continues post event. How can we possibly exceed that? Well, simply said...we move forward...and we ask that you join us at GHC 23.

We reflect on our mission of intersectional equity and pay parity in tech...and we move forward. We strive to address the barriers women and non-binary technologists face each and every day....and we move forward. We build on the successes, big and small...and we continue to move forward.

AnitaB.org and GHC 23, together with all of you and those we work to serve, are THE WAY FORWARD!
